

# MICHIGAN – ONTARIO IDENTIFICATION ASSOCIATION (MOIA)

(A Division of the International Association of Identification)

PRESENTS

## **CSI:CRANBROOK** **2006 MOIA FORENSIC CONFERENCE** **JUNE 13 – 16, 2006**

### **A THREE DAY FORENSIC CONFERENCE**

Join leading forensic experts from the United States and Canada for a continuing education program of multiple disciplines on the campus of Cranbrook one of the world's leading centers of education, art and science.

The M.O.I.A., Cranbrook Educational Community and law enforcement officials from across the professional spectrum will collaborate to present an exceptional forensic conference providing Crime Scene Investigation (CSI), the processing of scientific evidence and the presentation of expert witnesses in a mock courtroom setting. Leaders in the forensic sciences will share their knowledge, training and experience with those in attendance.

At a time of heightened awareness in the impact of crime at all levels, we are hoping that this conference will set a new standard in the collaboration among law enforcement officers, forensic specialists, the educational community available at Cranbrook and various city, county and state officials as well as Federal agencies in Michigan and Canada.

Registration Information: [www.moia.org](http://www.moia.org) or Chris Osborne 586-749-7564
